# College Terms Game

## How to Play

Divide students into small groups (4 groups per class or groups of 4-5 students works best). Have each group select a game piece and place it on HS Orientation. The object of the game is to go through freshman (first side of the board) year, sophomore year (second side of the board), etc. and be the first team to get to Graduation.

Students will select a College Terms card and answer the question. For every correct question, students should move forward (if the team gets the answer correct but it suggests they move backward, they may stay where they are) and for every incorrect answer they will move backward following the directions (if the team gets the answer wrong but it suggests they move forward, they must stay where they are).

If a team selects a Surprise!! card, they must ALL follow the directions on the card to complete the challenge and move forward. If they do not all complete the challenge they move backwards the designated spaces.

## Included in this Game (please count pieces before returning):

1 set of directions

1 game board

18 Surprise!! cards

44 College Terms cards

7 game pieces (tape ball, post-it note, rubber band, IU sticker, eraser, guitar pick, and paperclip)  
prizes for the winning team\*
