

# WHY SHOULD I KEEP DOING SCHOOL WORK?

## GRADES

Any work done now can only positively affect your grade. For high school students, keep in mind that these grades will still go on your transcript which will affect your GPA!

## COMMUNITY

We are all part of a community that is growing and learning together. Let's support each other from afar while still feeling connected!

## WORK ETHIC

Continuing to do school work will not only keep your mind sharp, but will help you build a stronger work ethic including time management, discipline, productivity, and responsibility.

## FUTURE CLASSES

Remember, the content you are learning now will build on for future years! Continuing to work will help ease you into the following school year without too much interruption.

## EDUCATION

We are lifelong learners and shouldn't take any opportunity for education for granted!

## TIME MANAGEMENT

Use this time to keep yourself busy and on a regular schedule throughout the day. Spend 30 minutes a day on school work for each class, and then use the rest of your time to do a hobby or activity that you enjoy (e.g. crafting, exercising, family time)!

## COLLEGE/CAREER

Continuing to work is good practice for the future! Learning for a few hours a day and working on your own for the majority of the time is a schedule that closely resembles that of a college student or a working professional.

## COMMITMENT

Continuing to work when not specifically required shows that you are committed to learning and not just getting a grade.

## CONNECTIONS

Virtual learning can help you maintain and strengthen the relationships you've built with teachers and staff at your school!

"Right now you have a precious opportunity to pause and ask yourself questions far too few high school students (and too few people in general) ever do: what drives and motivates me? Why am I doing this?"
